

Supply Chain Manager

P2 Mission Solutions is Growing! We're looking for top performers who are looking to grow with us! If you're excited to be part of a winning team, P2MS is a great place to grow your career!

Job Opening: Supply Chain Manager

P2 Mission Solutions is a leading supplier of Electromechanical Systems designed and manufactured to sustain and support military missions around the globe.

From expeditionary shelter systems to power generation systems, P2MS is in the forefront of developing and delivering highly engineered products for our men and women in uniform. We differentiate ourselves thru our highly experienced, diverse, and motivated team of quality committed individuals who are continuously innovating to make us a global leader in our market.

Position Summary

Directly oversee Purchasing, Sourcing and Quoting teams. Drive profitability, efficiency, and continuous improvement agendas. Provide leadership, purpose, responsibility, and accountability to all layers of reporting teams and staff. Compile metrics and data reporting for department and supplier performance.

What you will do:

- Hire, develop, and lead a team to source materials, purchase materials, and manage material throughout the system
- Ensure pricing of all products is competitive and achieves desired profitability
- Negotiate with vendors for best price and lead times.
- Follow up on critical purchasing orders to assure delivery and cost objectives are met.
- Communicate performance expectations and provide qualitative feedback to supply chain regarding performance of suppliers.
- Support gross profit goals by negotiating and controlling product costs, lead times, freight terms and purchase quantity requirements.
- Maintain existing supplier relationships and initiate potential new supplier relationships.
- Ensure procurement team training is conducted by appropriate trainers and follow up on effectiveness.
- Ability to meet deadlines without sacrificing quality
- Self-motivated with acute attention to detail, and the ability to handle multiple projects simultaneously.

- Track and report on all items under management.
- Work cohesively with other departments; production, engineering, and business development

What you need:

- Bachelor's degree or equivalent experience in a supply chain role.
- Flexibility to work scheduled hours and extra hours as required
- Operate a computer and basic software at a proficient level
- Excellent communication skills

Office location:

1285 Dunn Rd.
St. Louis, MO 63138

Competitive Benefits Include:

- Medical Insurance
- Flexible spending account (Cafeteria Plan)
- Dental
- Vision
- Aflac Plans
- 401(k) matching plan
- Paid Time Off (PTO)
- U.S. Citizenship or Lawful Permanent Resident status required per Federal requirements.
- Pre-employment background and drug screening is performed.
- All qualified applicants will receive consideration for employment without regard to race, sex, color, religion, national origin, protected veteran status, or on the basis of disability, gender identity, and sexual orientation.
